# Knowledge Organiser

Online Safety – Year 2

THEALE CE PRIMARY SCHOOL

Key Learning:

- To be able to search effectively within a safe system
- To share work and communicate locally with peers online
- To begin to use email as an online communication tool
- To begin to understand that everything we do online leaves a digital trace
- To know some of the steps we can take to keep our personal data safe

Key Vocabulary:

- Internet – a way to send information from one computer to another, using phones, satellites and radio links
- sharing – to post or repost something online
- email – messages sent and received electronically from one computer to another
- digital footprint – information we leave behind every time we go online
